## CONTENTS

REACH Wireless is brought to you by Apollo Fire Detectors, the UK's leading manufacturer of fire detection and alarm devices. With a global reputation for innovation, quality and reliability, Apollo products keep people safe from fire in over 100 countries around the world.

apollo-fire.co.uk

66 REACH Wireless is the latest in our range of hybrid-wireless fire detection. Created to make installation and commissioning quicker and easier, we have introduced a full suite of products including red and white flash VADs.

REACH Wireless has been designed to make extending an Apollo wired loop effortless. With an easy-to-use survey kit, REACH Wireless is FLEXIBLE + RELIABLE + PRACTICAL. 99

**Craig Mole**
**Product Manager, Apollo Fire Detectors Ltd.**

Apollo's hybrid-wireless fire alarm systems deliver flexible solutions for listed buildings, temporary structures and high-rise residential apartments, extending detection without compromising the level of protection from fire. Keeping people safe from fire, every second of every day.

# APPLICATIONS FOR REACH WIRELESS

REACH Wireless is Apollo's latest hybrid range. It saves you time and solves installation problems. It is ideal for **time sensitive installations** where lengthy downtime or disruption is not an option.

**Extensions**
REACH Wireless allows an existing fire system to be extended by **bridging wireless devices** to the wired loop, using the REACH Loop Interface. A new fire loop is not required, which **reduces cost and effort** – especially if the existing panel doesn't have any more available loops, as long as there is spare capacity on the loop.

**Outbuildings**
Similar to extensions, REACH Wireless can **extend the existing loop seamlessly** to outbuildings, without having to dig a trench and lay trunking. This eliminates the need for a second, independent panel and loop for your outbuilding or additional structure.

**Heritage**
Heritage or listed buildings typically have **additional restrictions** on disrupting the fabric of the building by breaking walls or adding trunking. In this case, it is **easier to install surface-mounted wireless products** to meet fire system requirements.

**Temporary buildings**
Temporary or retail structures can have restrictions on allowable modifications, or may need to be **installed in a short timeframe**. REACH Wireless can be surveyed ahead of time off-site and installation is quick, **minimising time onsite or downtime for the building**.

**Black detectors**
Black detectors provide a premium aesthetic for high end interiors. Specifiable feature in projects with exposed or black ceilings in industrial themed commercial facilities, such as cinemas, nightclubs, hotels, industrial high-end interiors, airports and restaurants.

# WHY CHOOSE REACH WIRELESS?

REACH Wireless delivers optimised radio coverage while minimising battery use, which gives greater flexibility and enhanced performance compared to a wired system.

**Flexible**
system for *'hard to wire'* applications

**Extend**
an Apollo wired system seamlessly

**Reliable**
design that meets EN 54:25

**Regular**
monitoring by the panel for signal integrity

**Practical**
installation that saves time and effort

**Training**
online and in-person to reinforce best practice

**Complete**
system with Dual Optical Detectors and VADs

**Survey Kit**
for easy onsite surveying and commissioning
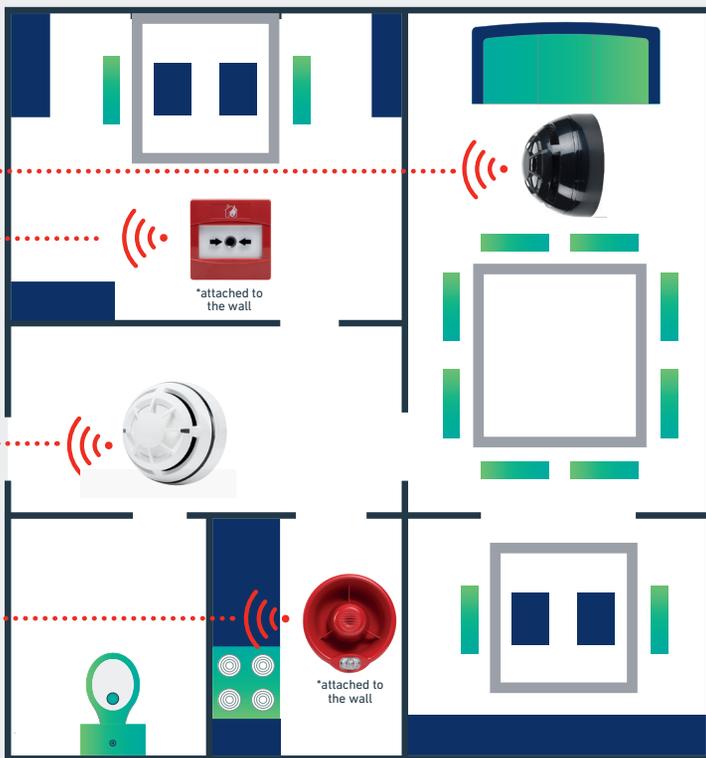

# SYSTEM ARCHITECTURE

## Product features:

- Up-to 32 wireless devices per loop-interface

- 100m radio range (clear line of sight)

- 44 RF channels in redundancy pairs, enabling reliable wireless connection

- Multi-angle antennas to maximise signal coverage

- Up-to 10 interfaces per loop, powered by the loop

- Built-in short-circuit isolator

- Compatible with all Apollo wired addressable systems

MAIN BUILDING

This example illustrates XP95 detectors however any addressable range can be used in combination with the REACH Wireless range.

EXTENSION

# FREE VIRTUAL TRAINING

We offer a comprehensive programme of industry CPDs and product webinars. For groups of five or more, enquire about a **FREE** exclusive CPD session.

Register online:
**apollo-fire.co.uk/training-support/cpds-webinars**

## CPD programme

Our CPD accredited courses are hosted live every fortnight. They include a Q&A and participants receive a digital CPD certificate after the session.

## CPD topics

- Detection principles and device selection
- Service, test and maintenance of fire detection equipment
- An introduction to BS 5839 Pts 1 & 6
- An introduction to BS 7273-4
- **REACH Wireless**
- EN 54-23 VADS
- False alarm management
- Fire safety in healthcare buildings UK

## Product webinars

We have a variety of on-demand product webinars on our website, available for you to watch anytime, anywhere.

Courses cover everything from product features and benefits, to best practice, applications, FAQs and more.
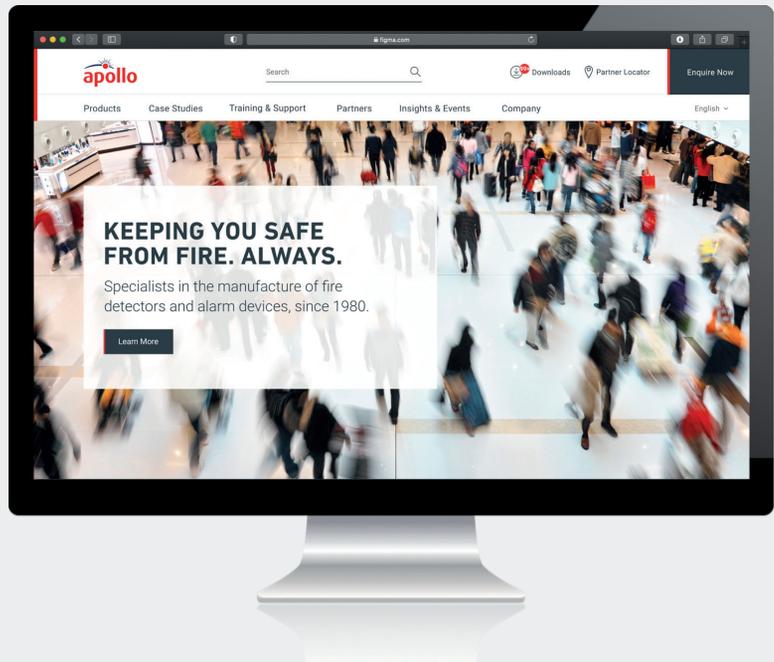

## Webinar topics

- Capabilities of XP95, Discovery & Soteria
- AlarmSense
- XPander
- Apollo Test Set:
  – An introduction
  – Loop view
  – Diagnostics
- Dimension: installation & maintenance

# ONLINE
# SUPPORT

The Apollo website is an invaluable source of information about our business, our brand, our products and our people. The site enables you to access all the features listed below. If you can't find the information you need or would like help navigating the site, please contact **marketing@apollo-fire.com**

## Visit apollo-fire.co.uk

- Contact our Technical Support and Customer Services Teams
- Register for training webinars and CPDs
- Find and download product information, including certificates, datasheets and installation guides
- Learn about our company and our opinion on industry matters
- View case studies
- Identify contacts from our Partner Directory (Distributors, Integrators and System Panel Partners)

# A COMPREHENSIVE SYSTEM

## DETECTORS

| PART NUMBER | ITEM NAME |
| --- | --- |
| RW1000-400APO | REACH Heat Detector – White Body |
| RW1000-460APO | REACH Heat Detector – Black Body |
| RW1000-600APO | REACH Optical Smoke Detector – White Body |
| RW1000-660APO | REACH Optical Smoke Detector – Black Body |
| RW1000-700APO | REACH Multisensor Detector (Optical/Heat) – White Body |
| RW1000-760APO | REACH Multisensor Detector (Optical/Heat) – Black Body |

## INTERFACES

| PART NUMBER | ITEM NAME |
| --- | --- |
| RW1700-030APO | REACH XP95 Loop-Interface Module |
| RW1700-051APO | REACH Input Module |
| RW1700-052APO | REACH Output Module |
| RW1500-800APO | REACH Remote Indicator Module |
| RW1900-901APO | REACH Manual Call Point |

## ACCESSORIES

| PART NUMBER | ITEM NAME |
| --- | --- |
| RW1800-060APO | REACH Survey Kit Lite |
| RW1300-010 | REACH AV Base Cap – White |
| RW1300-020 | REACH AV Base Cap – Red |
| RW1300-060 | REACH AV Base Cap – Black |

## AUDIO VISUAL (AV)

| PART NUMBER | ITEM NAME |
| --- | --- |
| RW1300-110APO | REACH Sounder Base – White Body |
| RW1300-160APO | REACH Sounder Base – Black Body |
| RW1300-210APO | REACH Sounder VAD Base – White Body (White-Flash) (C-3-15) |
| RW1300-260APO | REACH Sounder VAD Base – Black Body (White-Flash) (C-3-15) |
| RW1300-211APO | REACH Sounder VAD Base – White Body (Red-Flash) (C-3-10) |
| RW1500-110APO | REACH Open-Area Sounder – White Body |
| RW1500-120APO | REACH Open-Area Sounder – Red Body |
| RW1500-210APO | REACH Open-Area Sounder VAD Cat.W – White Body (White Flash) (W-2.5-7) |
| RW1500-220APO | REACH Open-Area Sounder VAD Cat.W – Red Body (White Flash) (W-2.5-7) |
