

ZEOS-BASE

DETECTORS BASE

Standard Detector Base

ZEOS-BASE design and materials guarantee a proper electrical contact with the detector head which is key to ensure a stable system. Mounting Zeos Base to uneven ceilings has been made easier because of narrow contact points.

Deep Detector Base

This mounting option enables external wiring conduits in locations like car parking, warehouses, etc.

TECHNICAL SPECIFICATIONS

COLOR	White
CASE MATERIAL	ABS
DIMENSIONS (STANDARD)	100 (D) x 10 (H) mm
DIMENSIONS (DEEP-BASE)	100 (D) x 30 (H) mm
