FIRE SAFETY EVERYWHERE

Every home

Every kitchen

Every
construction site

Every workplace

Every toolbox
and workbench

Every car, truck,
train and bus

Every hiker, camper
or caravaner

In the event of a fire would you know what type of extinguisher to use?

Using the incorrect extinguisher can be extremely dangerous and could make the situation worse.

The Zenova FX500 is safe to use on any type of fire, preventing the risk associated with multiple extinguisher classifications.
